Butrint Bytyqi

Computer Science Graduate & Software Developer

I'm a passionate software engineer focused on building real-world solutions that scale. From launching digital products to developing AI-powered tools and automation workflows, I love turning complex ideas into clean, functional code. Whether it's JavaScript, PHP, or even AI agents, I thrive at the intersection of tech and innovation.

EDUCATION

Bachelor Software Design
UPZ - Universiteti i Prizrenit

08/2021 - 06/2024   *Prizren, Kosovo*

- I hold a **Bachelor's degree in Computer Science** , with a focus on software development and web technologies.
- My thesis was titled **"Vulnerability and Security Assessment of Web Applications"** , where I analyzed common web security flaws and protection methods.

WORK EXPERIENCE

CO-FOUNDER & EXECUTIVE DIRECTOR
DOA (DIGITAL ORDERING APPLICATION)

07/2022 - Present

DOA *is a contactless ordering app that lets customers scan a QR code to view the menu, order, and pay-fast, simple, and efficient for restaurants.*

- Contributed to the launch of DOA in pilot restaurants across Kosovo.
- Helped define system scalability goals for 1000+ simultaneous orders.
- Presented the solution to potential partners, contributing to early adoption deals.

*Contact : Butrint Bytyqi - +38349153433*

Programming Trainer Assistant
jCoders Academy

06/2023 - 09/2023   *Prishtina*

- Delivered engaging workshops, improving student participation and clarity
- Strengthened mentoring and communication skills
- Guided students through coding logic and problem-solving

SKILLS

JavaScript · TypeScript · MongoDB · NodeJS · Firebase · Git/GitHub · Java · Laravel · MySQL · PHP · React · React Native · Vue.js · Docker · Kubernetes · CI/CD

PERSONAL PROJECTS

Hajde Folim (04/2025 - Present)
- *Mental health chatbot platform | React, Node.js, OpenAI API.*
- Developed a conversational platform using AI to support users with mental health guidance. Integrated GPT-based chat, user sessions, and admin controls for monitoring and content refinement.

Ordinance App (06/2025 - Present)
- *Desktop application for pharmacists and doctors | React (TypeScript), .NET .*
- Developed a real-time prescription management system allowing doctors to crate and update prescriptions, while pharmacies could verify and fulfill them. Implemented secure authentication and role-based access control.

Feedback App (01/2022 - Present)
- *Feedback collection platform for businesses | React, Node.js, MongoDB.*
- Built a web application that allows businesses to collect and analyze customer feedback in real-time. Includes customizable feedback forms, sentiment tagging, and response tracking.

CERTIFICATES

WEB DEVELOPMENT (HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACT) (01/2021 - 04/2021)
Covered HTML, CSS, JavaScript, Bootstrap, and React through hands-on training and project-based learning.
