CONFERENCES AND SEMINARS

09/11/2023 – 10/11/2023 Prizren, Kosovo
BRIDGE 2023 Conference – Presentation on Real-Time Face Recognition System

I presented my research paper, "A Proposed System for Real-Time Face Recognition: Enhancing Access Control, Security, and Efficiency in Cross-Domain Applications," at the BRIDGE 2023 Conference. This conference focused on "The Future of Science: Challenges and Opportunities," providing a platform to discuss cutting-edge technological advancements and their societal impacts. My presentation covered the development and implementation of a real-time facial recognition system, emphasizing its potential in improving security and efficiency across various sectors. The conference also allowed me to engage in discussions with researchers and industry professionals, exchange ideas on AI-driven security applications, and gain insights into the latest developments in the field.
